

The Protocol Team's Hook Building Journey

The Decision

V4

Building Phase - Development Journey

Setting up infra...
Building API...
Integrating AI oracle...
Implementing callbacks...
> deploy hook...

$\$0 \rightarrow \$2,500 \rightarrow \$5,000 \rightarrow \$7,500 \rightarrow \$10,000$

Day 1 $\rightarrow$ Day 7 $\rightarrow$ Day 14 $\rightarrow$ Week 2

$C_{\text{dev}} = \$10,000$ ✓

Testing Phase - Ensuring Quality

Running fuzzers... ↻

Formal verification... ↻

Integration tests... ✓

Edge cases... ✓

✓ 247 tests passed

COST:

\$10,000 → \$13,000

TIME:

Week 2 → Week 3

$C_{\text{test}} = \$3,000$ ✓

Running total: \$13,000

Audit Phase - Security Review

\$13,000

→ \$15,000

→ \$20,000

→ \$25,000

\$28,000

$C_{\text{audit}} = \$15,000$

Submitting to
auditors...

Waiting...

Review in
progress...

Running total: \$28,000

Total Cost Breakdown

$C_{\text{audit}} = \$15,000$

$C_{\text{test}} = \$3,000$

$C_{\text{dev}} = \$10,000$

$C_{\text{total}} = \$28,000$!

This was a SIMPLE hook. Complex hooks cost \$50k-\$170k+

Success... But At What Cost?

✓ Hook deployed \$28,000 spent 6 weeks elapsed

Was it worth it?

This was a
SIMPLE hook.
Complex hooks
cost \$50k-\$170k+
